Utibeabasi Ukobo

ukoboutibe@yahoo.com / 6472076928 / Ontario, CA

Summary

Junior Full Stack Developer with hands-on experience in MERN stack (MongoDB, Express.js, React.js, Node.js), AWS, and Python. Passionate about building scalable, user-friendly web applications with a focus on performance and maintainability. Strong problem-solving skills and experience integrating third-party APIs.

Experience

Front End Developer

Medrekod • Nigeria
06/2022 - 09/2024

- Assisted in developing and maintaining web applications using React.js and Node.js.
- Integrated third-party APIs and optimized database queries for improved performance.
- Collaborated with the team using Agile methodologies.
- Assisted in setting up CI/CD pipelines for automated deployments on AWS.

Front End Developer

Readsity • Nigeria
09/2020 - 05/2022

- Built reusable React components to improve code maintainability and consistency.
- Worked on enhancing UI/UX by implementing responsive designs with Tailwind CSS and Bootstrap.
- Debugged and resolved frontend and backend issues, improving application stability.
- Contributed to writing unit and integration tests using Jest and React Testing Library.

Skills

Strong analytical and problem-solving skills, Collaborative and team-oriented mindset, Node.js, Express.js, RESTful APIs, MongoDB, Jest, React Testing Library, Postman, Lazy loading, code splitting, efficient state management, React.js, Next.js, Tailwind CSS, HTML5, CSS3, WCAG standards

Education

Business and Information Systems Architecture

Fanshawe College • London, ON
12/2024
Awarded President's Honour Roll

Certificates

AWS Certified Cloud Practitioner, Frontend Web development(Reactjs) Side Hustle

Projects

Food Delivery App (MERN Stack)

1. Developed a full-fledged food ordering platform with real-time order tracking.
2. Implemented user authentication using JWT
3. Integrated payment gateway for secure transactions with stripe.

Portfolio website

- Developed the app with react and tailwind css for styling
- Deployed the application on AWS using S3 for media storage, Route 53 for DNS(register domains, route internet traffic) and Cloudfront.

Interior Decorating eCommerce Web App

1. Designed and developed an online store for interior decoration items.
2. Implemented product search, filtering, and cart functionality.

Box Office Web App (React.js, External API Integration)
1. Created a movie and TV show listing platform using an external API (e.g., TMDB).
2. Implemented search and filter options with dynamic data fetching.
3. Optimized API calls using caching mechanisms to enhance performance.
